

Memorial Scale Rules

14-3-25

This event allows flyers to fly models constructed by other modellers now no longer with us or able to complete them. The class is for flying only. The usual requirement for the model to be built by whomever enters it is therefore not required in this scale class. It is hoped that many interesting or even yet to be completed models built by others may be brought out to be flown once again.

Memorial Scale Rules

1. Models must be built by someone other than the flyer entering them.
2. The 'Builder of the model' rule does not apply.
3. There will be no static judging.
4. Models may be engine, electric, rubber or CO2 powered.
5. Flying rules are as follows:

Take-off (optional),	Up to 20 points
Initial climb,	Up to 20 points
Descent and landing approach	Up to 20 points
Realism in flight (speed, 'sit', stability and character).	Up to 40 points

Up to 4 flights may be made. Minimum qualifying flight time is 10 seconds
